

NEWPORT, RHODE ISLAND

August 13 – 15
\$250 per person, dbbl. occ.

Can't afford to fly to the islands to dive this summer? Come and beach dive this Island with Ocean Explorers.

Trip includes 2 nights hotel and 2 days of unlimited shore diving. Perfect for new divers as well as those looking do dive someplace new. The bottom is covered with anemones, and lobster, crab and tautog are quite common. You will also see skates, eels and sea bass. A night dive will have lobster crawling all over the place. (But don't take. Permits are required and not given to out of state residents.)

But, by all means, bring your cameras.

Because these are beach dives, each buddy team will need to fly a dive flag on a float.

We'll visit the historic town of Newport with its quaint shops, restaurants, piers and harbors.

You can also take a tour of the famous "cottages" of the wealthy gilded age families. Along Bellevue Avenue overlooking the ocean are mansions like the Breakers, summer home of the Vanderbilts.
