

Equipment Maintenance Class

Thursday, March 3 7:00 - 10:00 PM

Come spend two evenings with the friendly Ocean Explorers staff and eliminate the fear of losing dives due to minor equipment problems. We'll teach you the basics of how your equipment functions and some "in the field" adjustments you can do to recover when things go wrong.

This isn't a service technician course, so we won't be teaching you how to service your own life support system. But, you will learn how to select and care for your life support system. Call Jim to reserve a space
